“It may be most helpful to define the Infant Mental Health Specialist not as a member of a particular discipline, but rather as someone with a distinct set of core beliefs, skills, training experiences and clinical strategies who incorporates a comprehensive, intensive and relationship-based approach to working with young children and families.”

from *The Infant Mental Health Specialist*, 2000, by Deborah J. Weatherston

Who We Are

The Oklahoma Association for Infant Mental Health was founded in November 1991 and is an affiliate of the World Association for Infant Mental Health. We are the state entity that identifies and promotes the development of a qualified workforce to support the emotional development of infants, toddlers and families.

Our Goals

- To promote awareness of the importance of infant and early childhood mental health
- To enhance the capacity of the infant and early childhood mental health workforce
- To provide an interdisciplinary organization that encourages cooperation and collaboration with other groups, agencies, and individuals that serve infants, toddlers and families.

Take an Active Part!

OK-AIMH continues to expand and develop, and as part of your membership in OK-AIMH, we need your help in continuing our efforts statewide. We're asking members to join a committee. You don't have to live in the OKC or Tulsa areas to participate on a committee. OK-AIMH is eager to continue recruiting members across the state and, through technology, which is now easier than ever! With travel restrictions due to budget cuts and other reasons, we're attempting to link in whatever ways we can so that those interested are able to actively participate on behalf of Oklahoma infants, toddlers, families and caregivers. **For more information of the work of each of our committees, please contact one of our committee co-chairs.**
